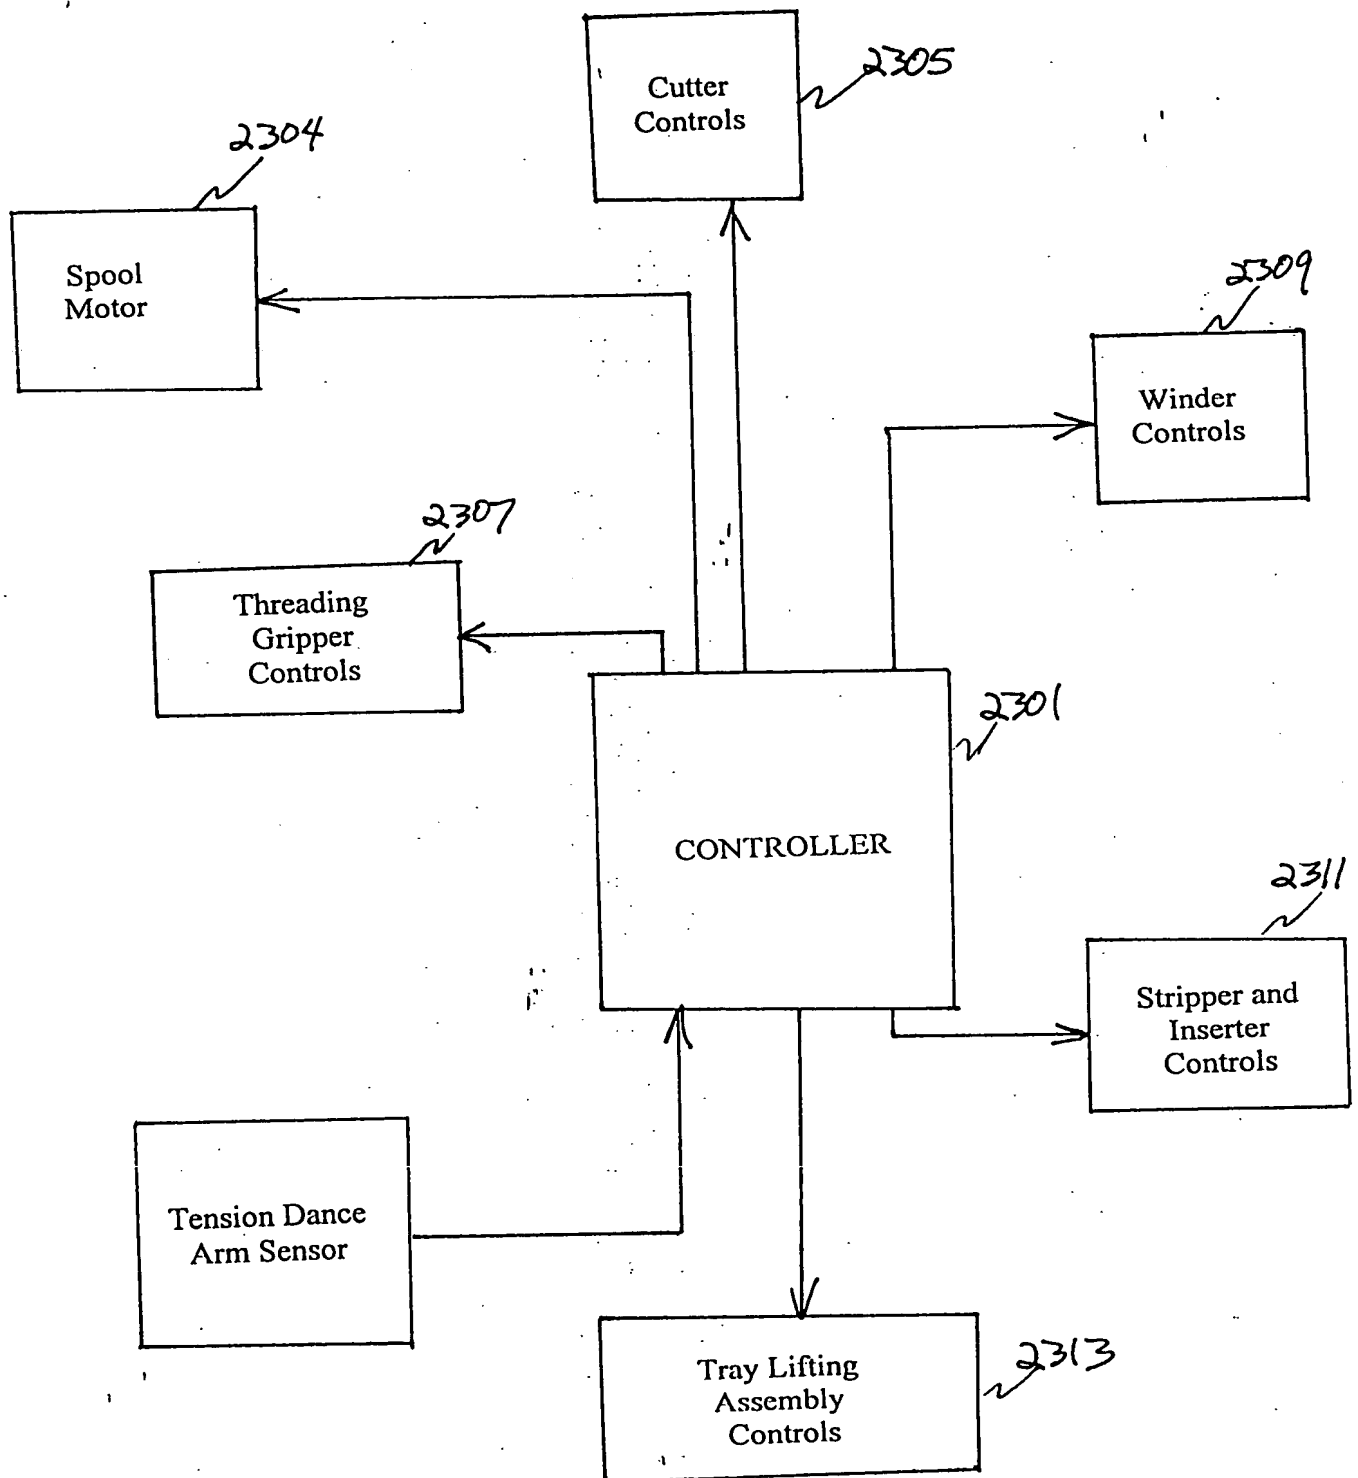

FIGURE 23

The diagram illustrates a system 206. A horizontal line 3002 passes through a vertical rectangular block 224. A dashed rectangular box 3004 encloses several components: a vertical rod 3010 with a horizontal bar 3006 at its base, a square block 3012, and a square block 3020. A circular component 3018 is positioned above the dashed box, connected to a square block 3016. A double-headed vertical arrow is between 3016 and 3018. A horizontal line 3008 passes through the dashed box. A square block 3014 is connected to the dashed box. A 'Controller' block is at the bottom left, connected to the dashed box. A double-headed horizontal arrow is at the bottom of the dashed box. A curved arrow points from the label 206 to the top right of the diagram.

FIG. 29

This diagram shows an exploded perspective view of a mechanical assembly. The main component is a large rectangular plate (3036) with a vertical slot (3096) and two mounting brackets (3080) at the top. Below the plate, there are several vertical rods (3120) and a horizontal rod (3104). These rods are connected to various components, including a vertical rod (3092) and a horizontal rod (3102). The assembly is secured with various fasteners, including screws (3122a, 3122b) and bolts (3094, 3104, 3102, 3124). The components are labeled with reference numerals: 3080, 3036, 3096, 3094, 3102, 3124, 3104, 3092, 3120, 3122a, 3122b, and 3120.
